

BREAST CANCER REHABILITATION: What does the general therapist need to know?

This course has been “recommended to a friend” and rated good or excellent 96% of the time (n=48)

TESTIMONIALS

This course is very detailed and organized. Deborah is an excellent instructor who combines didactic and clinical information. A true clinician with a gift to instruct, as well. Thanks!

EXCELLENT CONTENT! Very well organized and helped me make sense of a challenging topic.

Excellent speaker with lots of examples.

Well organized course. Very good price for the number of CEU’s.

Very interesting! Enjoyed the course! Kept my attention!

Thanks for an interesting class!

Excellent presentation, good info presented, had good sample of available products. Lab sessions beneficial and informative.

Enjoyed time to practice wrapping techniques.

Very informative! I know more about what I can treat myself as a general PT, and when to refer to a lymphedema therapist.

Deborah did an excellent job presenting Breast Cancer Rehab.

Great course again! Thank you!

Good handouts!
